

Program Manager Intern

Amazon India

About the job

Description

****You need to have the legal right to work in India for this role****

****This is a 6 month internship opportunity from Jan to July 2021, you may need to take a Leave of Absence****

Amazon Web Services (AWS) is a dynamic, growing business unit within Amazon.com that provides a broad set of infrastructure services including computing power, storage options, networking and databases available on demand. We are the leader in cloud computing and our pioneers are embracing innovation, building the future, and making history! The Infrastructure team provides AWS and Amazon.com with the compute, network and datacenter capacity that are the foundations of the retail and cloud business. We are seeking a talented and highly motivated individual to support the APAC data center Procurement space. As a Procurement Intern at AWS you will own a project that focuses on one of 3 key areas: Supplier Onboarding and qualification, Supplier Relationship Management or Category Management.

Team Overview

Data Center Services Procurement (DCSP) supports Data Center Global Services (DCGS) in obtaining the best services at the lowest, most competitive costs. We also seek ways to partner with suppliers for the long-term benefit of AWS. The team is responsible for sourcing service categories that occur during the construction of AWS's data centers.

Basic Qualifications

- Final year undergraduate degree student in Operations, Finance, Business, Marketing, Technology, or current MBA student who is looking to build a career in IT
- Proficient in Microsoft Office Suite (Word, Excel)
- Self-motivated to work proactively on tasks
- Great team player who can effectively work with others
- Excellent communications and interpersonal skills
- Fluent in English both verbally and written

Preferred Qualifications

- Students currently pursuing a degree in supply chain, operations, mathematics, legal or other related field
- Analytic minded students who have a passion for data-based process improvement

- Strong professional maturity and ability to communicate across all levels of the organization

Company - ADSIPL - Maharashtra
